RoHS Directive 2002/95

The substances listed in the Directive 2005/747, amendment of Directive 2002/95/EEC, Restriction of hazardous materials (**RoHS**) as mentioned Lead, Cadmium, Chromium VI, Mercury, polybrominated biphenyls (PBB) and polybrominated diphenylether (PBDE) are neither used as raw materials nor coming our products in contact with such materials during the manufacturing process. Thus we assume that our products are free of these impurities.

This statement fits not for our MC 550 series. MC 550 series do not comply with requirements of Directive 2000/53.

We hope this information is helpful. If you have any further question please do not hesitate to contact us.

With kind regards

Stefan Kurbjuhn
Product Safety Steward
