

Stratos Lightwave™ offer a comprehensive selection of cable drums complimenting high quality deployable cable assemblies. Users can select the appropriate design and style for this particular application. Drums are ideally suited to Military, Industrial, Broadcast and pro Audio applications. All drums can be supplied with a third flange allowing full access to each end of the cable assembly.

TBD-200

Trolley drum with one-piece foot, rubber tyres and removable steel handlebars for long term shipping and storage.

SBD-200

Small, lightweight and durable design for quick and easy use, ideal for applications where long lengths of cable are deployed out over large areas.

MBD-200

These reels are stackable for maximum transport and storage efficiency, rugged steel construction throughout, including square tubular frame.

BBD-200

Heavy duty drum with direct crank rewind permanently attached to the axle. Optional disk dividers can be added to accommodate multiple cables on the same reel.

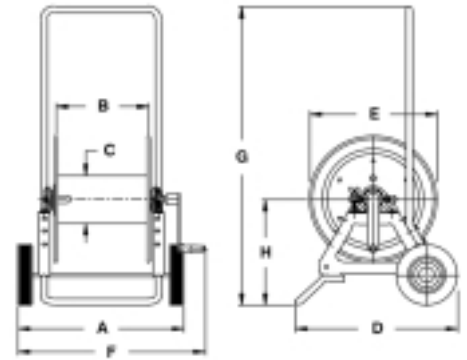

TBD-200

Cable Capacity of Reels

For a typical cable diameter of 5mm TBD drum will accept 200m of cable
